Truth & Training, Trek and Journey

## Because Kids matter to God

### Years 3 - 6

Teach kids the truth of God's Word & train them to follow Him

With four years of curriculum, T&T engages elementary-aged kids by answering their questions about God and the Bible while guiding them to grow in Christ's love and live out their faith. With Mission: Grace in Action materials, kids will explore the value of the Bible, Jesus' death and resurrection, and the impact of God's grace in their lives.

### Middle School

Help students discover what they believe and own their faith

Trek® is a natural step after T&T and fits whatever dynamic you have – whether your middle schoolers are long-time followers of Christ or not. Three studies are available for your group to work through, one per year. Materials are designed to capture interest and establish their faith.

### High School

Inspire students to be lifelong disciples.

Journey™ takes students through a practical application of God's Word and develop them as lifelong disciples. Materials are appropriate for both long-time followers of Christ and those who are just learning who He is. Our program includes team sports to foster fellowship and friendship
